Subject Index

1-Alcohol monolayers 208
2D shear elastic constant 208

ABC triblock copolymer 238
Adsorption 171, 322
Anomalous reflectivity 395
Atomic density profile 146

Bayesian probability theory 327
Binary magnetic alloys 127
Binary solvent mixture 204
Block copolymers 289

Catalyst support 95
Ceria 95
Chain conformation 284
Chemical order 127
Circular polarization 133
Coherent X-ray diffraction 387
Composite materials 243
Copolymer films 243
Co/Cu multilayer 395
Co/Ti layers 355

DPPE 269
Dendrimers 184
Depth profile 90
Dewetting 229
Dextran sulfate 269
Diblock copolymer 250
Diffraction 101
Diffuse X-ray scattering 25, 395
Diffuse scattering 62, 217, 229
Diffuse-X-ray scattering 191
Dispersions 211
Displacive phase transitions 83
Domains 25

Energy dispersive 405
Epitaxial film 95
Epitaxial multilayered gratings 343
Experimental design 327

Fresnel/Fraunhofer limits 399

GID 104
GMR 152
GaSe/Si 67
Gels 322
Gold films 62
Gratings 381
Grazing incidence X-ray diffraction 199
Grazing incidence diffraction 31, 343, 358
Gyroid 238

High-T_c films 56
High-T_c superconducting films 166
Holographic gratings 101
Hydrogen in metals 90
Hydrophilic surface 223

In situ deposition 109
Instrumentation 349
Interface structure and roughness 56
Interfaces 14, 53, 171, 246
Interfacial roughness 39
Intermixing 258
Inversion techniques 263
Inversion 338, 366
Islands 25

$LaNiO_3$ thin film 109
Langmuir–Blodgett films 217
Langmuir–Blodgett multilayers 258
Layered compound 67
Liquid crystalline films 191
Liquid crystals 246
Liquid metal/ceramic interface 316
Liquid surfaces 263, 310
Liquid-crystalline polymers 274
Liquid–solid interface 223
Liquid–liquid interface 289
Lyotropic mesophases 211

MBE grown films 127
Magnetic circular X-ray dichroism 127
Magnetic disorder 14
Magnetic penetration depth 166
Magnetic phase diagram 133
Magnetism 9
Magneto-resistance 140
Magnetocrystalline anisotropy 121
Maximum entropy 327
Mechanical method 208
Metal–ceramic interfaces 304
Methane 297
MgO 297
Microphase-separated interface 284
Minimal surface 238
Mixed surfactants 223
Model selection 327
Monolayer structures 199
Monolayers 211
Morphology 387
Multilayer monochromator polarizer 355
Multilayer monochromator 377
Multilayers 31, 152

Nanoclusters 1, 34
Nanoparticles 243
Nb films 166
Neutron off-specular diffuse scattering 14
Neutron reflection spectroscopy 316
Neutron reflection 90, 171, 284, 289, 304
Neutron reflectivity 204, 223
Neutron reflectometry 184, 338, 349, 377
Neutron scattering 297
Neutron specular reflection 243, 366
Neutron supermirror 53
Nickel–carbon multilayer 274
Nickel 405
Ni/Ti multilayer 53
Non-collinear magnetic layer 157
Non-specular reflection 31
Non-specular reflectivity 274

Orbital magnetization 121

Partial coherent radiation 399
Penetration depth 163
Perpendicular magnetic anisotropy 127
Phase angle 338
Phase diagram 199
Phase problem 366
Phospholipid monolayer 280
Phospholipids 211
Polarisation analysis 349
Polarized neutron reflection 166
Polarized neutrons 157, 163, 372
Polymer adsorption 289
Polymer-coupled monolayers 269
Polymer 229
Polystyrene 204
Porosity 322
Porous silicon 101
$Pt/LaF_3/Si$ samples 48

Reflectivity 53, 152, 387
Reflectometry 101, 157, 163, 258, 372
Resonant X-ray magnetic scattering 133
Roughness 14, 31

SANS 322
SFM 229
SQW 104
STM 1, 246
Sapphire 79
Semiconductors 74
Silicon 79
Sputtering 31
Strain relaxation 34
Structure and morphology 56
Supermirror 372
Surface X-ray diffraction 95
Surface acoustic waves 358
Surface grating 104
Surface growth 39
Surface profiles 366
Surfaces 9, 14
Surface/interface scattering 399
Surfactant monolayers 310
Surfactants 171, 184
Synchrotron X-ray reflectivity 395

Texture 405
Theories of diffraction and scattering 381
Thermal fluctuations 191
Thickness 56
Thin films 140, 157, 250, 263, 405
Thin polymer film 280
Thin-film technology 121
Titanium segregation 304
Tricontinuous structure 238
Twist grain boundaries 74
Twisted magnetic structure 133
Two-component triblock copolymer 284

X-ray diffraction and scattering 56
X-ray diffraction 1, 34, 67, 74, 211, 246, 269, 358, 387
X-ray diffuse scattering 39
X-ray reflection 62
X-ray reflectivity 109, 133, 140, 146, 217, 250, 258, 280
X-ray reflectometry 381
X-ray resonant magnetic scattering 146
X-ray scattering 48, 381
X-ray specular reflectivity 83
X-ray strain determination 79

$YBa_2Cu_3O_7$ 163
